Contents

1. 1. Why GigaSocial
2. 2. Profiles & multi-account
3. 3. Composer & media controls
4. 4. Tips, gifts & unlocks
5. 5. Discovery & community growth
6. 6. Safety & professionalism
7. 7. Content calendar for African creators
8. 8. Measuring what matters
9. 9. Series 3 checklist

Part of the four-volume Giga3 Creator Academy. Each series is sold separately at GHS 150.00.

1. Why GigaSocial

GigaSocial is the social layer of Giga3 — a place to publish, discover, tip, gift, and grow a creator brand beside AI tools. This Series 3 playbook (Academy price GHS 150.00) focuses on habits that convert attention into community. Live at <https://www.giga3ai.com>.

2. Profiles & multi-account

Creators may maintain multiple social profiles (up to platform limits) with one main face. Use a main brand account for flagship posts and secondary accounts for experiments, niches, or regional languages. Keep handles clear, bios benefit-focused, and avatars high-contrast at small sizes.

Never confuse marketplace creatorProfiles (sell verification) with socialProfiles (feed identity). Complete both if you sell and post.

3. Composer & media controls

The compact composer is optimized for mobile posting. Attach images/video from GigaEdit handoff or device library. Use on-media controls for like and tip where enabled — frictionless reactions increase completion rate on short video.

Write the first line like a hook. Add 3–7 relevant hashtags. Prefer one clear CTA (follow, tip, unlock, visit marketplace). Avoid dumping every link in every post.

4. Tips, gifts & unlocks

Tips and gifts let fans support creators in GHS via Paystack-backed flows. Locked or gift-gated content should promise a clear unlock value (lesson, pack, behind-the-scenes). State the price and what buyers receive before they pay.

Treat tipping UX errors as trust events — show calm, specific messages when a tip fails, and never double-charge. Series 4 details payment verification and marketplace delivery.

5. Discovery & community growth

Post consistently (quality over spam). Reply to comments within a day. Cross-link from chat replies and marketplace product pages when relevant. Use Creator News / news desk surfaces on the sell dashboard to stay current without leaving creator tools.

Growth loops that work: teach one tip → show the result in GigaEdit → sell the deeper PDF or template on Marketplace → invite buyers into a GigaSocial series.

6. Safety & professionalism

Respect copyright on music and stock. Credit collaborators. Do not publish private ID documents. Report abuse through platform channels. Keep verification data only in the creator verification flow — never in public posts.

7. Content calendar for African creators

Suggested weekly rhythm: 2 educational carousels/reels, 1 behind-the-scenes GigaEdit process post, 1 marketplace soft sell, 1 community reply thread. Post when your audience is mobile-active (evenings/weekends). Localize examples — prices in GHS, cultural references your followers recognize.

Offline: draft captions in notes; publish when connectivity is stable so media uploads do not stall mid-composer.

8. Measuring what matters

Track saves, tips, profile visits, and marketplace clicks — not vanity alone. If a format earns tips, make a series. If a post drives marketplace views but no buys, tighten the product page preview text and cover (Series 4).

9. Series 3 checklist

- ☐ Set main social profile + one experimental profile
- ☐ Publish three posts with distinct hooks
- ☐ Enable or test tip/gift on a media post
- ☐ Reply to every comment for 48 hours
- ☐ Funnel one post to a marketplace product

Next: Series 4 — Monetize & Marketplace (GHS 150.00).
